

Akfix®

P R O F E S S I O N A L

PU WINDSHIELD ADHESIVE

HIGH MODULUS - SHORE A-55

- 
- Special formulation
 - Good non-sag properties, bead stability
 - Cold application
 - Fast curing –Rapid strength development
 - High mechanical performance
 - High Modulus
 - High initial bond strength
 - Can be overpainted

Properties

HIGH MODULUS

SHORE A-55

**It is especially useful in bonding
windshield glass into automotive frames**

COLD
APPLICATION

Excellent application
even in cold weather.

The image shows the interior of a vehicle, viewed through a black frame with a yellow border. A blue repair device is mounted on the dashboard. The text is overlaid on the right side of the image.

Fast and excellent
adhesion

Fast curing
Rapid strength development

High mechanical
PERFORMANCE

Excellent
performance

Excellent bond strength
even at the first time.

HIGH initial
bond strength
